

UPDATED 3-20-2020

BEST PRACTICES FOR MANAGEMENT OF SUSPECTED OR CONFIRMED COVID-19

How do I doff PPE in the OR?

STEP 1

Grab yellow isolation gown at waist and pull forward to break ties at back. Continue pulling forward to cause back of gown to tear away.

STEP 2

Roll gown into itself and peel off gloves at same time. Only touch the **inside** of the gown and gloves. Discard.

STEP 3

Remove face shield or eye goggles without touching your face. Do not touch the front of the face shield or eye goggles.

STEP 4

Remove N-95 respirator by lifting the bottom strap over your head and then lifting the top strap over your head.

STEP 5

Perform hand hygiene with alcohol-based hand sanitizer.

CHANGE YOUR SCRUBS PRIOR TO PROVIDING FURTHER CLINICAL CARE OR LEAVING HOSPITAL
